2020 NGBS 901.8	At least 10% of interior wall surfaces are covered and a minimum of 85% of wall coverings are in accordance with the emission concentration limits of CDPH/EHLB Standard Method v1.1 and products are certified to an ISO 17065 program. 4 points available.	4	To earn points, this product must be used to cover the walls of at least one typical size room.	✓

GRESB Scoring Potential

GRESB is a framework widely used by commercial and multifamily organizations that measures the ESG (Environmental, Social, and Governance) performance of a company's real estate portfolio. Certification to the following 2020 NGBS practices indicates that this product potentially contributes to one or more GRESB Indicator(s). For more information, visit www.HomeInnovation.com/ESG and www.GRESB.com.
